The report, prepared by the Special Unit for Technical Cooperation among Developing Countries, provides an assessment of progress made in the implementation of technical cooperation among developing countries on the basis of the biennial progress reports submitted by the organizations of the United Nations development system and the responses of some Governments of both developed and developing countries, as well as intergovernmental organizations, on their activities to support and promote technical cooperation among developing countries. That report is prepared in response to paragraph 10 of Committee decision 7/5 concerning the submission to Committee sessions of a single document containing an analysis of the information provided by Governments and organizations with conclusions and recommendations, as appropriate.
